PROFESSIONAL SUMMARY

Results-oriented B. Tech CSE"27 student experienced in Full-Stack development and ML technologies. Proficient in building ML models with hands-on experience in MERN Stack and Data Analysis. Experienced in leadership and collaboration in Hackathon. Winner in CodeManthan Hackathon 2025, Finalist In hcakNchill Hackathon. Eager to deliver scalable solution that solve real-word application problems

EDUCATION

Bachelor of Technology (B. Tech) – Computer Science and Engineering	2023-2027
MERI College of Engineering and Technology, New Delhi, India	
Higher Education	2021-2023
Pragya Bharti Public School, Gaya, Bihar, India	
Secondary Education	2020-2021
Pragya Bharti Public School, Gaya, Bihar, India	

ACHIEVEMENTS & KEY PROJECTS

Smart India Hackathon 2025 – Winner (2nd Position)	Team BrainyBots
<i>Organized By MERI College</i>	
- Secured 2nd position among 50 teams by developing a Student-centered internship portal resulting to connect the gap among student-industry-college for solving internship failures - Centralized, digital platform that strengthens the internship process and provides real-world experience with pre-internship training modules - This application features Industry Collaboration, Faculty & Admin Panel with credits Integration System	
hackNchill Hackathon – Runner-Up (5th Position)	Team DevDynamos
<i>AGDIPS GDSC</i>	
- Secured 2nd position among 50 teams by developing a Student-centered internship portal resulting to connect the gap among student-industry-college for solving internship failures - Centralized, digital platform that strengthens the internship process and provides real-world experience with pre-internship training modules - This application features Industry Collaboration, Faculty & Admin Panel with credits Integration System	
AI/ML Prediction Model – Scikit-Learn, TF-IDF, Cosine Similarity	
- User-Friendly and scalable Prediction Model that can amaze user by predicting the best songs according to the user's taste. - This model uses Spotify dataset form Kaggle that includes parameters like artists and album name to calculate the TF-IDF and danceability, energy, key combining together for cosine similarity.	
Photogram Realtime chat application – MERN (Socket.io, Cloudinary)	
- Realtime chat application and a social media platform to connect and share your ideas to the world. This app allows you to a complete package of the social media application including the your reactions. - You can create post and share your thoughts to the world	

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML5, CSS3
Frameworks: React.js, Node.js, Express.js, Framer Motion
AI/ML: Machine learning, Scikit-learn, numPy, Pandas, matplotlib, seaborn
Web Tech: RESTful APIs, Responsive Design
Tools: Git, GitHub, Postman, VS code, Google Collab | **DataBases:** MySQL, MongoDB

POSITIONS OF RESPONSIBILITY

- Team Lead in Hackathons
- Hackathon Winner (2nd) and Finalist (Top 10)
